## PROFILE

Recent IT graduate skilled in multi-platform environments and innovative technology solutions. Passionate about transforming business objectives into technical realities that align with market trends and best practices. Eager to gain experience in technical project management and process optimization

## EDUCATION

**Diploma in Computer Science** 2021 – 2024  
*College of Computer and Information Sciences / King Saud University*

## PROFESSIONAL EXPERIENCE

**Trainee – Internship - T2** 2023 Mar – 2023 Jun

*T2 (Research and Business Development Company)*

- **Completed required courses within the first week of my internship.**
- **Developed a virtual company using the Avilo app to manage employee attendance and departures.**
- **Enhanced the app's accessibility and user experience, focusing on special needs.**
- **Improved UI for better usability and integrated comprehensive features for managing work locations and schedules.**

## PROJECTS

**Digital Student Library System (KSU)** 2023 Sep – 2023 Dec

*HTML/CSS | JavaScript | PHP | MySQL | Project Management*

- Developed a Digital Student Library System featuring secure logins and an advanced search engine, utilizing HTML, CSS, JavaScript for frontend and PHP, MySQL for backend, enhancing resource management for users.

**Employee Attendance and Leave Management System (T2)** 2023 Mar – 2023 Dec

*Web Development | Web Design | Accessibility Standards | Responsive Design*

- Developed a web-based application to manage employee attendance and leave, featuring real-time tracking, user-friendly interfaces, and administrative dashboards for enhanced data management.

**Discord Notifications Integration for Salla E-commerce** 2024 Oct – present

*Python | Flask Framework | API Integration | Discord API | Real-Time Data Processing*

- Developed a Flask-based webhook service to integrate Salla e-commerce with Discord, streamlining order notifications and user role assignments based on purchase history, leveraging Python and API integration skills
